Re: The Airline Train Bill HB 5415

I support the deletions in the above named bill except for the section reading “primarily as a footpath.” As it is now, the bikers so overwhelm the walkers that walking on Airline Trail when school is out or on any mild day is not pleasant. Also, the horse droppings create quite an obstacle course for walkers and bikers. I wish that the trail was just for walkers.

However, I definitely support the deletion “eminent domain.”
